Correlation What Is Correlation? Perfect Correlation

With a less than perfect correlation, we can no longer perfectly predict the value of one variable given the other variable We cannot explain all the variability in one variable with the variability in the other variable _____ 10 The Correlation Coefficient Correlation coefficients tell us how perfectly two (or more) variables

Why there is something rather than nothing

in the past, the universe has to exist rather than not because its possible non-existence is never an option, such an explanation is put forward As a logical extension of only an eternal universe being capable of providing an answer to the question of why there is something rather than nothing, the argument necessitates that the universe must be
